Prof. (Dr.) SUNIL P.S.

Head & Chairman, Board of Studies

Department of Marine Geology & Geophysics

School of Marine Sciences

Cochin University of Science and Technology

Prof. (Dr.) Sunil P.S. currently serves as the Head of the Department and Board of Studies Chairman of the Department of Marine Geology & Geophysics, Cochin University of Science and Technology (CUSAT). He has done his M.Sc. (Tech.) and Ph.D. in Marine Geophysics from CUSAT, and Post-Doc in Tectonic-Geodesy from Nevada Geodetic Laboratory, University of Nevada, USA. Prof. Sunil began his career and worked as a Scientist and Research Professor respectively at the Indian Institute of Geomagnetism, Government of India, Mumbai from 2000-2018. During 2009 and 2011, he was a visiting Scientist at Kyoto University, Japan, and University of Nevada, USA respectively. He is a recipient of JSPS Exchange Program Fellowship by Kyoto University, Japan in 2009, and BOYSCAST Fellowship and RUSA Faculty Exchange Grant by Govt. of India in 2011 and 2024 respectively. During 2009, 2011 & 2024, he was also a visiting Scientist/Faculty at Kyoto University, Japan, University of Nevada, USA and Universidad Católica del Norte, Chile. As part of his research activities, he has been a member of Indian Antarctic Scientific Expedition twice during 2003 & 2005 and Indian Arctic Scientific Expedition four times consecutively during 2013 to 2016. He is a Member of UGC National Level Subject Matter Expert Committee on Polar Studies, Advisor of UPSC Board for Combined Geo-Scientist Examination and Indian Geophysical Union's (IGU) Executive Council. He also serves as an Academic/Research Coordinator of the CUSAT-NCPOR Centre for Polar Science in School of Marine Sciences, CUSAT and Principal Investigator of different external Government agencies funded projects. He is a member of many National and International Geoscience Unions and reviewer of many SCI journals. He is having more than 55 peer reviewed research publication in his credit and also writes popular science articles in periodicals. He is also the Executive Editor of the Journal of Marine and Atmospheric Research. At present, his research areas include Tectonic-Geodesy, Solid-Earth Geophysics, Earthquake-Seismology, Ionosphere-Seismology, GPS Meteorology, Hydro-Geodesy, Geo-hazards and Glacier-Dynamics.
