# 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

## Semester - I

---

### 1. General English Paper I (20-272-0101)

#### Course objectives:

The objective of the course is to give the students a strong foundation of the English language which in turn is the basis of legislations, judgments and other legal instruments. The course is to equip them with the correct usage of English language and thus the possible interpretations of the same. This is essential for the students to learn law, in applying law, in arguing law, in drafting, and in judgment writing.

#### Learning outcome:

On successful completion of the course, the students will be able:

- ❖ To use the grammar correctly
- ❖ To develop good vocabulary, and writing skill
- ❖ To nurture a habit of reading

#### Course Contents:

##### Module I

Tenses and Concord, Nouns, Pronouns, Relative Pronouns

##### Module II

Gerunds, Adjectives, Adverbs, basic transformations.

##### Module III

Complex and Compounds Sentences Conditionals. Reported Speech

##### Module IV

Question tags and short responses, Common errors in usage

##### Module V

Reading comprehension - Principles and practices. Listening comprehension

### **3. Business Statistics**

**(20-272-0103)**

#### **Course Objective:**

The objective of this course is to provide basic knowledge about statistics and enable students to learn statistical techniques for further study in business, economics, and finance. This course applies statistical methods in a business context to address business related questions and evidence based decisions. It enables students to apply commonly used statistical methods and how to interpret the results.

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To know different types data and sources of data
- ❖ To apply the basic statistical tools
- ❖ To summarize and present data visually and numerically
- ❖ To develop critical thinking and problem-solving skills.

#### **Course contents:**

##### **Module I: Introduction to Statistics**

Origin, Meaning, Scope and Limitations of Statistics, Relationship with business and Industry, Data, Types of Data, Big Data, Information, Business analytics, Statistical variables: Qualitative and Quantitative Data.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - I

---

#### **Module II: Data Processing**

Data Collection, Classification and Tabulations of data, Frequency Distributions, Data Grouping: Discrete and Continuous, Introduction to Graphs, Graph for Qualitative variables, Graph for Quantitative variables, various types of graphs and diagrams: pictographs, bar diagram, scatter diagram, histogram, pie chart, and frequency curve and frequency polygon

#### **Module III: Measures of central tendency**

Mean, Median and Mode, Weighted Average, Geometric Mean, Harmonic Mean, Relative merits of Mean, Median and Mode in a distribution, Mean of two or more means - Measure of dispersion - range - quartiles - standard deviation - Coefficient of variation Skewness – Kurtosis

#### **Module IV: Introduction to Correlation and Regression**

Correlation - Meaning - Positive, negative and zero correlation, Correlation through Scatter diagrams, Interpretation of Correlation Co-efficient, Simple and Multiple Correlation; Regression

#### **Module V: Probability Theory**

Basic concepts in probability. Statistical dependence and independence, Bayes theorem. Sample space and Events, Simple and Compound Events, Probability and Probability Distributions: Normal Distribution, Binomial and Poisson distribution

### 4. Managerial Economics (20-272-0104)

#### **Course Objectives:**

The objectives of this course are to provide knowledge to the students about basic economic concepts and to familiarize the students with the economic principles and theories underlying various business decisions and to equip the students to apply the economic theories indifferent business situations.

#### **Learning Outcomes:**

On successful completion of this Course, the students will be able:

- ❖ To design competition strategies, including costing, pricing, product differentiation and market environment according to the natures of products and the structures of the markets.
- ❖ To analyze the demand and supply conditions and assess the position of a company and real-world business problems with a systematic theoretical framework.
- ❖ To make optimal business decisions by integrating the concepts of economics, mathematics and statistics.

#### **Course Contents**

##### **Module I: Introduction**

Definition, scope, role in Business decisions; Economics systems.

##### **Module II: Demand analysis**

Demand analysis:- utility analysis of consumer's demand; indifference curves; consumer equilibrium; elasticity of demand and its measurements. Demand distinction-durable and non- durable goods, deriver and autonomous demand, industry and company demand; demand for forecasting-methods.

##### **Module III: Cost analysis**

Cost analysis-cost concepts and classification, cost-output relationship, determination of cost, breakeven analysis. Cost control and cost reduction.

##### **Module IV: Markets its classification**

Price determination; Market its definition and classification, price output determination under perfect and monopolistic condition. Business cycle: causes- indicators-business forecasting- use of business cycles in business decisions

##### **Module V: National income**

National income – meaning and concepts Trends in India's National Income – GDP – GNP – NNP - Methods of measuring national income - unemployment, black money and corruption– rising prices – Micro finance and its significance – importance of infrastructure in India's economic development

### **5. General Principles of Contract (Law of Contract – I)**

#### **(20-272-0105)**

#### **Course Objectives:**

The distinctive feature of this foundational course is that it is offered in two levels and is a consolidation of general principles of law of contracts. The focus of this course will be on the nature of agreement, the reason for non-enforceability of an agreement, the justification for non-performance of an agreement and the ground for awarding damages. The discussion will further entail the analysis of the law of obligations and specific reliefs for breach of contracts. The course also examines the practical applications of law relating to contracts to resolve issues posed by a technology driven commercial world. Being a foundation course the approach will be both theoretical and critical with emphasis on case law analysis. The course intends to cover the contemporary judicial and legal developments in this area.

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To assess the norms for formation and discharge of contracts in India and role of courts in enforcing them.
- ❖ To apply the existing legal principles of contract law to solve issues posed by an evolving technology driven society.
- ❖ To appreciate the legal framework relating to law of contracts.

#### **Course content**

##### **Module-I- Formation of Contract**

Nature of contractual obligation - Theories of contract – General classification of contracts – Electronic/ Smart Contracts – Government Contracts & International Contracts- offer-its Types, Intention to create legal relationship - Acceptance – Forms, essential elements and Promise.

## **5 Year B.B.A. LL.B. (Honours) Syllabus - 2020**

### **Semester - I**

---

#### **Module-II - Essentials of Contracts**

Capacity of parties – Legal Disqualification to enter into Contracts- Minors, Persons of Unsound mind – Effects of agreement with disqualified persons- Free consent - factors vitiating free consent - Misrepresentation, coercion - and undue influence – Fraud & Mistake

### 1. Research Methodology (20-272-0601)

#### Course Objective:

The objective of this course is to provide the basics of methodology of social science research to the students. The course introduces the language of research, elements of the research process and approaches. It also aims to familiarize review of literature, tools for data collection and basics of data analysis, and interpretations of research findings.

#### Learning Outcomes:

On successful completion of this course, the students will be able:

- ❖ To understand the basic framework of research process
- ❖ To identify various sources of information
- ❖ To develop an understanding of various research designs and techniques and explain how to conduct research

#### Course contents

##### Module I: Introduction to Research

Foundations of Research: Meaning, Objectives, Motivation, Utility. Concept of theory, empiricism, deductive and inductive theory Characteristics of scientific method – Understanding the language of research – Concept, Construct, Definition, Variable, Research Process.

##### Module II: Problem Identification & Formulation

Research Question – Investigation Question – -sources-technique involved in defining a problem, Measurement Issues – Hypothesis, Measurement: Levels of measurement – Nominal, Ordinal, Interval, Ratio

##### Module III: Research Design

Concept and Importance in Research – Features of a good research design – Exploratory Research Design – concept, types and uses, Descriptive Research Designs – concept, types and uses, Experimental Design: Concept of Independent & Dependent variable., Qualitative and Quantitative Research

##### Module IV: Sampling

Concepts of Statistical Population, Sample, Sampling Frame, Sampling Error, Sample Size, Characteristics of a good sample. Probability Sample – Simple Random Sample, Systematic Sample, Stratified Random Sample & Multi-stage sampling. Determining size of the sample

##### Module V: Data Analysis

Data Preparation – Univariate analysis - frequency tables, bar charts, pie charts, percentages, Bivariate analysis – Cross tabulations and Chi-square test - testing hypothesis of association- Interpretation of Data and Report Writing

## 2. Operations Management (20-272-0602)

### Course Objectives

The objective of this course is to familiarize the role of operations in improving the efficiency of an organization. It also aims to introduce business problems relating to operations. The course would also seek to familiarize Students with the application tools and techniques in operations management. It also gives an overview of challenges being faced by the organizations in the domain of operations and supply chain.

### Learning Outcomes:

On successful completion of this course, the students will be able:

- ❖ To understand the role of operations and the significance of operations strategy in the overall business
- ❖ To develop a thorough understanding of a range of inventory models available
- ❖ To learn different quality tools and the tools of statistical process control for analyzing a process

# 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

## Semester - VI

---

### Course contents

#### Module I: Introduction

Production and operation management as function, nature and scope, decision areas, historical developments. Operations strategy, different production systems product, process and capacity planning.

#### Module II: Quality Management

Total Quality Management: elements, tools for TQM. Cost of Quality . Quality standards- ISO 9000. Statistical process control, control charts. Concepts of acceptance sampling OC curve.

#### Module III: Design of goods and services

Process Technology. Facility location, layout planning. Work study, method study and work measurement.

#### Module IV: Planning and Control

Production planning and control in different production systems, aggregate planning, short terms scheduling SCM concepts. Maintenance management

#### Module V: Inventory management

Independent items, basic EOQ and production quantity models, reorder point Quantity discount model, safety stock, probabilistic models with constant lead time. Dependent items, Basic MRP structure Materials management classification system. JIT system. Purchasing stores management.

### 3. Civil Procedure Code and Limitation Act (20-272-0603)

#### Course Objectives:

The course intends to impart basic knowledge about the civil procedure followed in Indian courts and thereby enable one to get familiarized with the proceedings followed in civil courts. The course introduces and provides insights on practice and procedures followed in civil courts. It also facilitate the students to interact with the practicing lawyers and to share their experiences. The course intends to cover the contemporary judicial and legal trends in this area.

#### Learning Outcome:

On the successful completion of this course, the students will be able:

- ❖ To handle proceedings happening in the civil court.
- ❖ To equipped for civil drafting process.
- ❖ To prepare and attend moot court and ADR competitions.
- ❖ To develop the skills and ethics required for a practicing lawyer

#### Course Contents:

##### Module –I: Fundamentals of Civil Procedure

Suits in General a) Definition - Decree, decree holder, judgment, judgment debtor, legal representative, mesne profit, order and pleader, Cause of action. b) Jurisdiction of the Courts (Subject matter, territorial and pecuniary) c) Res subjudice d) Res judicata e) Foreign Judgment – significance of section and order and rule- distinction

##### Module II: Civil Litigation

Suits a) Parties to Suits. b) Framing of Suits. c) Pleadings generally (Order VI). d) Plaint – Order VII. e) Written Statement- Order VIII (Set-off & Counter-claim). f) Appearance of parties – Ex parte Decree, dismiss for default. g) Costs and Interest h) Filing a Caveat

##### Module III: Civil Court Trials

Trial of suits and Execution of Decrees a) Summons-Issue and Service of Summons. b) Summoning and Attendance of witnesses. c) Withdrawal and adjustment of Suits. d) Examination of parties by the court. e) Temporary & permanent injunction and Interlocutory Orders-Issue of commissions f) Arrest and Attachment before Judgment. g) Execution of Decrees - Executing Court, - Modes of Execution etc.

##### Module IV: Civil Appeals, Review and Revisions

Appeals, Reference, Review and Revision a) General provisions relating to appeals b) First Appeal c) Second Appeal d) Appeals to the Supreme Court e) Appealable Orders f) Reference g) Review h) Revision i) Inherent Powers of Court- Special suits a) Suits by/and against minors and person of unsound mind. b) Suits by/ and against indigent person. c) Suit by/and against Government.

## Semester - VII

---

### 1. Management Project (20-272-0701)

#### Course Objective:

The course aims to apply business concepts and theories to real-world decision-making. It also aims to increase proficiency in specific business disciplines; such as human resources management, operations management, marketing, accounting, statistics, economics, finance, and business law.

#### Course Outcome:

On successful completion of this course, the students will be able

1. To strengthen the business skills in decision making, communication, technology, and quantitative reasoning
  2. To expand network of professional relationships and contacts
  3. To think independently, analytically through the process of research and inquiry while making effective decisions in business environment
1. During the beginning of the seventh semester students have to undertake a management project and submit the report before the conclusion of seventh semester University examination.
  2. The Management project has to be undertaken by the students upon any functional area of Management in an organization or an independent study.
  3. Mark allotment:-

Project Report :	50 marks
Project Viva :	50 marks
TOTAL :	100 marks.
  4. The report shall be printed and spiral bound with around 50 A4 size pages.

The layout is:

Font : Times New Roman Size : 12

Line Spacing : 1.5

Margin : Left - 1.5; Right-1; Top-1; Bottom-1

The project report should be submitted to the Department at least 15 days before the last working day of the seventh semester. The candidate shall prepare two copies of the report: one copy for submission to the Department and one copy for the student to bring at the time of viva-voce
  5. Structure of the Report Title Page Declaration Acknowledgement  
Certificate(s) with signatures Table of Contents  
List of Tables, List of Figures  
Executive Summary

### **4. Criminology, Penology and Victimology**

**(20-272-0804)**

#### **Course Objectives:**

This course aims at the interrelating the concepts of crime and punishment-understanding the concept of criminology and the various theories of criminology and its relevance in criminal law, explaining the concept of punishment, the theories of punishment and the philosophy underlying each theory. It also aims at acquiring knowledge regarding the classification of offences in the context of sentencing. The course throws light on understanding the concept of rehabilitation in the context of the various correction

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

and rehabilitative techniques employed by the criminal justice system and the efficacy of such techniques in achieving its purpose. It also enables to identify the role of victim in criminal justice system and rights of victims in the criminal justice system.

#### **Learning Outcomes:**

On successful completion of this course, the student should be able:

- ❖ To illustrate how the various factors as put forth by the various schools of criminology influence crime and to relate the crime to different factual situations
- ❖ To analyse the sentencing policy which influence a judge in imposing appropriate sentences and to evaluate the propriety of sentences imposed on the offenders
- ❖ To demonstrate the efficacy of the rehabilitative and correctional techniques as envisaged by the criminal justice system and to assess whether the state addresses the various rights of the victims.

#### **Course Contents:**

##### **Module 1: Schools of Criminology and theories of causation of crime**

Criminology - nature, scope and its relevance in Criminal justice administration. Schools of criminology - classical, neo classical - positive school - sociological - cartographic - psychological – psycho analytical school - Radical school of criminology- Causation of crime- hereditary – different theories of causation- chromosomal factors - mental deficiency – environmental factors-economic and social factors-poverty - family - school - religion – media

**Module 2: Theories of Punishment, classification of offences and Sentencing Policy** Concept of punishment - Theories of punishment - Sentencing – objectives- sentencing Process and policies- stages of Sentencing process- individualization of punishment- exceptions to concept of individualization of punishment- punitive treatment in socio economic offences- Punitive treatment for habitual offenders- mandatory death penalty- sentencing discretion-disparity in sentencing-soft sentencing- compounding of offences- Probation-case laws.

##### **Module 3: Kinds of Punishment**

Different methods of punishment-corporeal and incorporeal punishment-Solitary confinement- capital punishment-fine and compensation-emerging forms of punishment- community service, public shaming etc.

##### **Module 4: Post Sentencing and Classification of Convicts**

Correctional & Rehabilitative techniques- institutional correction of the offenders-After care services for adult and juveniles-duty of the state to rehabilitate-corrective labour-duty of state to maintain dependents of convicts.

##### **Module 5: Classification of Victims and Protection of victim Rights**

Victimology-conceptual meaning and scope—Primary, Secondary and Tertiary victims-need for protecting victims of crimes—International Law on Victim Justice-impact of Victimisation—circumstantial victims- women and children as victims-special protection to woman and child victims- - victims of domestic crimes-victims of crime as witnesses- statutory provisions- Compensation to victims- Restitution-concept of Restorative justice- need for protection through legislation-

### 5. Disaster Management Law (20-272-0805)

#### Course Objectives:

This course is intended to provide an idea about the danger of disasters and the need to manage those issues. It will give an overview about environmental issues and health issues arising from disasters. Further, it also provides an insight about various methods to deal with disasters and its effects and the legal mechanisms available to deal with issues related to disasters. The course intends to cover the contemporary judicial and legal developments in this arena.

#### Learning Outcomes:

On successful completion of this course, the student will be able:

- ❖ To gain knowledge on various man-made and natural disasters
- ❖ To analyse the impact of disasters on environment and health
- ❖ To develop an attitude to think the means and ways to respond very effectively in cases of disasters and equip the students to take lead role to deal such situation.

#### Course Content

##### Module I: Introduction

Disaster - definition and scope of application- magnitude of disaster- preemptory measures- preparedness- international legal framework— natural and man-made causes- Rescue, Relief & Rehabilitation

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020 Semester - VIII

---

### **Module II: Effects of Disasters**

Consequences of disaster-socio political- economic - cultural -environmental issues– disruptions of basic amenities and essential services-efficiency of the disaster management systems to address & mitigate the consequences- addressing the cause of the vulnerable groups in disaster.

### **Module III: Health Care Management in Disasters**

Health issues –Disaster Induced Injuries & Casualties-eruption of diseases-communicable diseases- epidemics and pandemics- access to health care – trauma care-role of state machinery & other health care providers

### **Module IV: Legal Framework on Disaster Management**

Laws response to disasters – National and International Legal framework- Disaster management and conflict of rights- Constitutional dimensions-machinery for action – authorities constituted - powers and functions of authorities - Co-ordination of central authorities and state authorities -role of police- health-revenue administration-other concerned agencies-judicial responses in varied contexts

### **Module V: Victim Centric Responses in Disaster Management**

Role of State and Not For Profit organization in post disaster management- Victims of disaster- ex-gratia payments and compensation- relief & rehabilitation- human rights perspectives

## **6. Human Rights Law**

**(20-272-0806)**

### **Course Objective:**

The course provides an introduction to human rights philosophy, principles, instruments and institutions. The course introduces the main United Nations Conventions and legislations in India for protection of human rights. It also gives an overview of contemporary challenges, current issues and debates in human rights.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

#### **Learning Outcome:**

On successful completion of this course, the student will be able:

- ❖ To gain substantive knowledge of the international law and policy of human rights.
- ❖ To develop analytical skills to appraise human rights policies and practices.
- ❖ To analyze the contemporary challenges and trends in human rights theory and practice.

#### **Course Content:**

##### **Module I- Introduction**

The concept of Human Right - Theoretical Basis of Human Rights- Theoretical Foundation of Human Rights - Natural Law and Natural Rights- Origin and development- Ancient - Medieval – 17th & 18<sup>th</sup> Century, 19th & 20th Century – Modern Developments- Generations of Human Rights - Civil and Political Rights -Economic, Social and Cultural Rights.

##### **Module II- International Human Rights Documents**

U.D.H.R – ICCPR – ICESCR - Optional Protocols - Implementation, enforcement, remedies under international human rights law - International Adjudication- Effectiveness of UN Human Rights System.

##### **Module III-Human Rights in India**

Implementation of Human Rights in India - Limitations on and derogations from rights– Protection of Human Right Act 1993-Powers of NHRC - Role of judiciary in enforcing Human Rights-Role of NGOs and Human Rights activism in India.

##### **Module IV-Human Rights of Vulnerable Groups**

International Human Rights Law on Women’s Rights - Refugee Rights - Child Rights - Rights of Differently Aabled - Minority and Indigenous People Rights - Sexual Minorities - Legal Framework in India.

##### **Module V – Contemporary Challenges**

Contemporary Challenges to Human Rights - Science and Technology-Digital freedom- Terrorism- Business and Human Rights.

### 7. Intellectual Property Laws (20-272-0807)

#### **Course Objectives:**

With the tremendous growth in technology and communication devices, information and related products have become the most valuable assets. The objective of this course is to identify what elements of such information and newly created products can be protected under law. This course also identifies the different kinds of intellectual properties that are protectable under the Indian law, what subject matter is protected under the different kind of IP, who can own these kinds of properties and what their rights are. More importantly the course will help students appreciate how the rights of public are balanced against this private right. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To understand the nuances of IP legislations and its protection
- ❖ To appreciate the need and technique of protection of larger public interest
- ❖ To file the different forms of IP

#### **Course Contents:**

##### **Module I: Overview of Intellectual Property**

Concept of Intellectual Property – its relation vis-à-vis property – Limited Monopoly - rationale of its protection- considerations – social, economic and political dimensions of IP– its role in industrial and other developments- Interface between IP and Competition Law

##### **Module II: Copyright**

History and evolution – standard of ‘originality’ – ‘works’ that are protected – duration of protection – procedure for registration – meaning of copyright – assignment and licensing of rights – infringement – permitted uses of copyrighted works and its significance – remedies against infringement; Neighbouring rights – Performers rights – rights of Broadcasting organisations; International IP norms – Berne Convention – TRIPS – TRIPS Plus

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

#### **Module III: Patent**

History and evolution – meaning of inventions– standards of novelty, inventive step and utility – category of patentable inventions –procedure for registration and duration of protection –rights – assignment and licensing of rights – infringement – permitted uses and its significance– remedies against infringement; International IP norms – Paris Convention– TRIPS – PCT.

#### **Module IV: Trademarks**

History and evolution – meaning of mark – concept of distinctiveness and deceptive similarity–prohibition of registration of marks–procedure for registration and duration of protection–rights–assignment and licensing of rights–infringement–permitted uses and its significance – remedies against infringement; protection of well-known marks – certification marks–collective marks; remedy of passing off; International IP norms–Paris Convention – TRIPS – Madrid System

#### **Module V: Others Forms Of IP**

Industrial design, geographical indication, new varieties of plants, semiconductor integrated circuits, trade secrets, protection of domain names, traditional knowledge, traditional cultural expressions – their history and evolution – standards of protection – subject matter rights–infringement of rights and its remedies; International IP norms–Paris Convention TRIPS – Hague System

### **Semester - VIII**

---

#### **8. International Humanitarian Law and Refugee Law**

**(20-272-0808)**

##### **Course Objectives:**

The primary objective of the course is to give insights about the main principles of international humanitarian law. It discusses the main issues in international humanitarian law. It enumerates the rights of prisoner of war and the role of international courts in providing redress to them. It helps the students to understand the problems in national implementation of humanitarian law. The course intends to cover the contemporary judicial and legal trends in this area.

##### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To understand the scope and extend of international humanitarian law.
- ❖ To understand the human rights issues concerning prisoners of war and refugees.
- ❖ To work with NGO's working in the field of humanitarian law.

##### **Course Contents:**

###### **Module I- Introduction**

Scope and extent of International Humanitarian Law –Origin of IHL- Sources of IHL-Use of force and IHL- Conflict status and Combatant status-Protection of Combatants in sea and land- Linkages between international Human rights law -IHRL, International humanitarian law -IHL and International refugee law-IRL.

###### **Module II- Armed Conflict**

Classification of Armed Conflict- Commencement and Termination of Hostilities-Rights and obligations of prisoners of war-Non- International armed Conflict -War Crimes- Terrorism - War tribunals- International Criminal Law-Protection of women, children and other vulnerable groups.

###### **Module III- Protection of Civilians and Objects of Cultural Importance**

Protected Persons- Civilian objects- Protected objects and property- Cultural Objects- Protection of natural environment- Enemy Property.

###### **Module IV- National Implementation of IHL**

National Implementation of International Humanitarian Law-Minimum Standards for Reception conditions -Response of national laws and national courts-Regional refugee protection frameworks- SAARC.

###### **Module V- Refugees**

Refugee-Determination of refugee status- UN Convention - International mechanisms for the protection of refugees- Refugee and Migrant- Rights of Refugees- Non-refoulement- Gender related Persecution- Climate Refugees- Refugee with special needs-Exclusion and Cessation of Refugee status- Asylum- Statelessness.

### 9. International Trade Law

(20-272-0809)

#### Course objectives:

This course discusses the legal system governing international trade, with particular emphasis on the law of the World Trade Organization (WTO) and the Indian legal framework on the regulation of foreign trade. The objective of this course is to give students a comprehensive overview of the world trading

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

system, with in-depth knowledge of selected segments in this increasingly influential branch of international law. This course is designed for students who may practice in the subject area, either at private firms, think-tanks or in government, or generally for any student who would like to understand the world trading system for personal or scholarly reasons. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning outcomes:**

On successful completion of this course, the students will be able

- ❖ To explain the institutional set up of the WTO and analyze the legal structure of international trading system
- ❖ To describe and distinguish the general rules governing WTO law and the covered agreements such as GATT, GATS and TRIPS and relate it with the WTO dispute settlement mechanism
- ❖ To recognize the relevance of the regionalization of trade and identify major regional organizations establishing free trade areas and customs unions

#### **Course contents:**

##### **Module I: Introduction to International Trade Law**

Basics of international trade and commerce–Historical background of the General Agreement on Tariffs and Trade (GATT1947)–The role of international trade in the global development – Sources of international trade law – International economic institutions

##### **Module II: The WTO System**

Evolution of WTO – Legal Structure – Principles and working of WTO – Understanding the structures of the Covered Agreements – Trade in Services (GATS) – Trade related aspects of Intellectual Property Rights (TRIPS) – Dispute settlement understanding

##### **Module III: General principles of non-discrimination**

Most-favored Nation Treatment (MFN) – History and Basic issues – GATT/WTO cases concerning MFN– National treatmentscopeandapplication–HistoryandBasicissues– Likeproducts – GATT/WTO cases concerning National Treatment

##### **Module IV: Exceptions and trade remedies**

General exceptions – Security exceptions – Anti-dumping – Subsidies and countervailing duties – Safeguards – Protection of domestic market and India's commitments to free trade

##### **Module V: Regional Integration and trade**

Preferential trade agreements – Free Trade Areas – Customs Union – WTO Committee on Regional Trade Agreements (CRTA) – Transparency mechanism – Dispute Settlement

### 10. Interpretation of Statutes (20-272-0810)

#### **Course Objectives:**

This course provides an idea about how a law can be interpreted in cases of ambiguity. It also enlightens the students about various rules and principles applicable while interpreting a legal provision. Further this course gives an idea about the importance of various tools for interpretation; the special rules applicable to interpretation of Constitution; and the special rules relating to legislative interpretations

#### **Learning Outcomes:**

On successful completion of this course, students will be able:

- ❖ To understand the legal provisions and laws in its right perspective.
- ❖ To perform well in Courts as a lawyer by applying various principles relating to interpretation
- ❖ To perform well as a judge if they join in judicial service.

#### **Course Contents**

##### **Module I: Introduction**

Meaning of Interpretation - Need for Interpretation – Act – Enactment - Statutes – Ordinances - Rules, etc.

##### **Module II: Internal Aids to Interpretation**

Title – Preamble – Heading - Marginal Note – Section - Sub-section – Punctuation – Illustration – Exception – Proviso – Explanation - Saving Clause – Schedule

##### **Module III: External Aids to Interpretation**

Constituent Assembly Debates for Constitutional Interpretation - Constitution of India - Legislative History: Legislative Intention - Statement of Objects and Reasons - Legislative Debates - Committee Reports, Law Commission Reports

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020 Semester - VIII

---

### **Module IV: Rules of Interpretation**

Literal Rule - Golden Rule - Mischief Rule - Legal Fiction - Ejusdem generis - Noscitur a sociis - Reddendo singula singulis - Generalia specialibus non derogant

### **Module V: Legislative Interpretations**

Presumptions and Assumptions - Jurisdiction - repealing - Constitutionality of statutes - retrospective operation - Equitable construction - strict construction of penal laws - mandatory and directory provisions - Construction of words - maxims.

## **11. Land Utilization Law**

**20-272-0811**

### **Course Objective:**

The course seeks to explore the need and objectives of land use controls. It discusses the environmental issues relating to land use pattern. It enables students to get an overview of various laws governing land use, land acquisition and land reforms. It also helps to have an idea on the international norms on land use planning. The course intends to cover the contemporary judicial and legal trends in this area.

### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To appreciate the laws governing land use pattern.
- ❖ To analyse environmental issues related to land utilisation.
- ❖ To understand international norms on land use planning.

### **Course Contents:**

#### **Module I- Introduction**

Land use control –Objectives of land use planning and controls –Constitutional Perspectives- Land Management and Improvement of Land Quality-Land use conflicts.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

#### **Module II-Environmental Issues in Land Use**

Environmental issues relating to land use pattern – Zoning legislations and the environmental concerns- Paddy field reclamation -Wetlands – Coastal Regulatory Zones- Reclaimed lands -Development Controls- Mining Controls.

#### **Module III-Urban Land Use**

Town Planning -Sanitation- Building regulations-Solid waste Management-Mobility Planning- Regional Connectivity-Roads and railways - Land Pooling schemes- Squatter Settlements.

#### **Module IV- Land Acquisition and Land Reforms**

Law relating to Land Acquisition – Agricultural Land Ceiling- Urban Land Ceiling- Land reform in Kerala- Law relating to Alienation and Assignment of land in Scheduled areas.

#### **Module V- International Practice on Land Use**

International norms on land use and urban planning- International guidelines on territorial planning- sustainable urban development- Inclusive cities- Inclusive governance.

## **12. Law and Medicine**

### **(20-272-0812)**

#### **Course Objectives:**

The principal objective of the course is to provide a detailed overview of various medical laws to the students. It also intends to provide the students with the idea of right to health as a basic human right and its importance in the society. The course is also aims to identify and discuss various ethical issues involved in the area of medical law and to sensitize the students about the need for regulating medical profession and practices. It is thereby the laws regulating medical profession and education identified

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

and put to analyse its competency in protecting the rights of the patient community. The socio-legal issues related to access to medicine is also an important concern of the society being analysed in this respect. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To identify and argue over various ethical and social issues involved in medical practice.
- ❖ To identify the comparative legal positions in various medico-legal issues.
- ❖ To enable the students to tackle the ever emerging ethical and legal challenges in the area of medical law with the advancement of science.

#### **Course Contents:**

##### **Module 1: Control over Medical Profession**

Control of medical profession through law - ethical code for medical professionals- Role of MCI Rules on professional conduct - liability of doctors under common law - criminal liability - consumer protection and medical profession- Regulating medical education.

##### **Module 2: Ethical Concerns involved in Medical Practice**

Laws bearing on medical practice-ensuring quality service-need for a comprehensive health policy and law- Ethical and legal issues relating to Abortion- ART, Surrogacy, PNDT Act- Euthanasia- control of epidemics and quarantine rule- relevant legal regulations on organ transplantation.

##### **Module 3: Control of Drugs**

Control of drugs - manufacture – distribution- Drugs and Cosmetics Act- Definition of Drugs- Import, Manufacture of Drugs and relevant rules- prohibition on magical remedies- IPC provisions.

##### **Module 4: Human Experimentation and Medical Science**

Human experimentation legal and ethical control - national and international regulations- Nuremberg Code, Helsinki Declaration, other relevant international guidelines- ICMR Guidelines and Rules on Clinical Trials-

##### **Module 5: Access to Health Care and Constitutional Framework**

Access to medical care and health services – public health emergencies- cost of health care

-measures to make the facilities accessible - aspects of social justice in this regard- relevant Supreme Court Decisions- patent regime and its impact on health sector-compulsory licensing- access to medical records by patients.

### 13. Law Governing Scientific Research

(20-272-0813)

#### **Course Objectives:**

The course provides the base for understanding the niche areas of interface between law and scientific research. It provides an overview of the contemporary developments in the area of scientific research and the existing national and international norms for the same. It delves into ethical, legal and social issues and challenges in different types of scientific research. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcomes:**

On successful completion of this course, the students will learn:

- ? To familiarize with the contemporary developments in the areas of scientific research and law
- ? To equip the students to handle technology based litigations
- ? To analyze critically the gaps in the international and national norms and thereby accentuates their analytical skills

#### **Course Contents:**

##### **Module I- Scientific Research and their Different Forms**

Aspects of Scientific research - Funding for research programmes– Types- Military research  
- Incentives for research - Monopoly for outcome of research - Research for Community interest - Agricultural and Horticultural Research.

##### **Module II- Legal Response to Marine and Space Research**

Marine Scientific Research and Atmospheric - space research - Limitations under Customary international law - UNCLOS III Provisions - Research in inland waters, territorial sea, Economic Zone, Continental

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020 Semester - VIII

---

Shelf and High sea, weapon testing in sea- NTBT and Law of the sea-Research in outer space and atmosphere.

### **Module III- Human Subject Research : Legal & Ethical Concerns**

Research on Human subjects - Types of research – Embryo research and Human genetics for research - research ethic committees and license requirements - Consent to research - Confidentiality in health care research – Informed Consent- Bioethics- Problems of applied research - prenataldiagnostics,HIV identification.

### **Module IV Pharmaceutical Research and the Law**

Research relating to Drugs and Pharmaceutical products – New Drug licensing - Clinical trials guidelines by WHO – European Convention - Drug licensing procedures in India,

U.K. and U.S.A.

### **Module V- Biological Resources and Scientific Research**

Research on Biological Resources- International and National Approaches-Protection of research animals - Rules under PCA, Biotechnological research - Rules relating to DNA research, guidelines by Bio Safety Commission - Cloning of Human beings. Human rights and ethical issues.

## **14. Law of Co-operative Societies** **(20-272-0814)**

### **Course Objectives:**

The course aims to provide an understanding about the concept of cooperatives- society. It enables to acquire knowledge about the evolution of the concept and imparting information about the historical development of co-operative Societies. It aims to acquaint the students with relevant provisions of the Co-operative Societies Act, 1969 and illustrating the structure and functioning of the Co-operative Societies. It also aims discussion on the procedures relating to settlement of disputes, winding up and amalgamation procedure. The course intends to cover the contemporary judicial and legal trends in this area.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To appreciate the advantages of forming a co-operative society
- ❖ To understand the structure & composition of a co-operative society and how a co-operative society functions
- ❖ To know the legal formalities regarding the formation, functioning, winding up & dissolution of a co-operative society

#### **Course Content:**

##### **Module 1: Evolution and Historical Development of Co-operative Societies**

The concept of co-operation—definition, nature, values, objectives & principles- history and development of co-operatives –association & enterprise characteristics- different types of co-operatives - classification of co-operative societies-departmental set up.

##### **Module 2: Co-operative Societies Law**

Selected provisions of Kerala Cooperative Societies Act, 1969—Registration- cancellation and suspension of registration- Powers of Registrar-amendment of byelaws -amalgamation & division-members-rights & liabilities

##### **Module 3: Composition, Powers and Privileges of Co-operative Societies**

Management of societies— General body, Board of Directors, Chief Executive Officer— powers, election and nomination –privileges of societies

##### **Module 4: Management of Funds**

Properties and funds of societies-disposal of net profit-cooperative education fund- maintenance of fluid resources

##### **Module 5: Enforcement Mechanism & Winding Up**

Audit of societies-settlement of disputes-execution of awards & decrees- arbitration-winding up and dissolution of co-operative societies-liquidator, powers & liquidation procedure.

### 15. Law on Building and Engineering Contracts (20-272-0815)

#### Course Objectives:

With the growth in population and industrial activity, construction activities is on an all - time rise. This calls not merely for qualified technical persons in abundance but also on lawyers with knowledge on how the sector works along with drafting agreements to suit the needs of the industry. The objective of this course is to introduce students to the nuances of building contracts, to familiarize them to the notions specific to this sector, the drafting and enforcement of such contracts. The course intends to cover contemporary developments in the judicial and legal position in this arena.

#### Learning Outcomes:

On successful completion of this course, the students will be able:

- ❖ To understand the procedure with regards to drafting of Engineering and Building Contracts
- ❖ To understand the role of different stakeholders
- ❖ To understand how to manage the interest of different stakeholder

#### Course Contents:

##### Module I: Nature of Building and Engineering Contracts

General principles of contract law – proposal- acceptance – withdrawal – words & phrases used – Build Operate Transfer contract – Builder – Building scheme – Defect Liability period–Estimate–prime cost sum; Tenders – requisites – negotiations – criteria for fixation of price

##### Module II: Actors Involved

Architect – Engineer – Quality surveyor – project manager; definitions – qualifications –duties – powers – limitation of powers – liability towards – employer – contractor and 3<sup>rd</sup> parties; Subcontracts – relation between contractor, subcontractor and owner- Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996.

##### Module III: Performance

Specific performance – obligation of employer & contractor – contracts where time is of essence – extension of time – extra – variations – alteration – additions – omissions – approval and certification – price and payment

**Module IV: Defects & Breach** Defect Liability Period–maintenanceanddefectclause–frustrationofcontract–novation of contract – waiver & estoppels; breach – anticipatory – theory of damages – standard of proof – calculation of damages – forfeiture – determination – vesting of materials

##### Module V: Interpretation

Literal construction – harmonious construction – implied terms – non obstante clause – damages – arbitration clause – power to omit works – proper use of stipulated material – clauses prohibiting award of damages

### 16. Law Relating to Child (20-272-0816)

#### Course Objectives:

This course aims to provide an insight into the significance of giving special treatment to the children and to have special legislations to deal with children. This course is also aimed to impart knowledge regarding the various UN conventions relating to Children and to analyse the Indian Legislations in comparison with the provisions of the UN convention. The course also gives an insight on the various facets of rights relating to children in the domestic laws. Understanding the philosophy of the Juvenile Justice (Care and Protection of Children) Act, 2015 and to distinguish between the children in conflict with law and children in need of care & Protection. Impart knowledge about the special legislations enacted to protect children from sexual offences.

#### Learning Outcomes:

On successful completion of this course, the students will be able:

- ? To appreciate the provisions of the Special legislations relating to children in the light of the objects of the legislation and the rights sought to be protected
- ? To develop critical thinking in analysing whether the Indian Legislations are in consonance with the UN Conventions and to critically analyse the efficacy of the various legislations, the existing gaps, if any, and to relate theory and practice
- ? To appreciate the judgments in the light of the philosophy underlying the various legislations relating to children

#### Course Content

##### Module 1: Evolution of Rights of Child and International laws

Historical development of special treatment for children – concept of childhood – Constitutional Perspective-norms in national law - norms in international law – comparative analysis- Convention on the rights of the child.

## **5 Year B.B.A. LL.B. (Honours) Syllabus - 2020**

### **Semester - VIII**

---

#### **Module 2: Protection of child Rights under Civil laws**

Rights and immunities of children under municipal law-contract-tort-crime–Personal Laws & child-inheritance - maintenance -adoption and guardianship.

#### **Module 3: Child Welfare Legislations**

Child labour- prohibition-welfare legislations- Education- Constitutional position-Right to Free and Compulsory Education Act 2009- Child Marriage Prohibition

#### **Module 4: Juvenile Delinquents and Children in need of care and Protection**

Juvenile Justice Act- Treatment of child in conflict of law- Special mechanisms envisaged under the Juvenile Justice Act - philosophy reflected under-Treatment of child in need of care and protection - provisions relating to adoption – domestic and inter country adoption.

#### **Module 5: Special Legislation relating to sexual offences and exploitation**

Sexual offences against Children- POCSO- Trafficking of children–Child pornography.

### **17. Law Relating to Ships**

**(20-272-0817)**

#### **Course Objective**

The objective of the course is to create awareness among law students to address legal issues innate to ownership of ships. Amongst the course content, substantive and procedural aspects of registration is one area prone to litigations and controversies that necessitate an in depth analysis in the course. Another inevitable component is the limitation of liability dealt with in the scheme. Acquiring of skills with drafting and interpretation of shipping contracts adds value to the course. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcomes**

On successful completion of this course, the students will be able:

- ❖ To compare and contrast legal framework and practice for registration and ownership of ships – both domestic and international.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

- ❖ To appreciate the international consensus for protection of seamen relating to employment of seamen on board ships.
- ❖ To demonstrate understanding of ancillary shipping contracts and its drafting.

#### **Course Content**

##### **Module-1. Jurisdiction of states over ships**

Jurisdiction over ships - Civil, Criminal & Administrative- Internal Waters & Ports – Territorial waters, Exclusive Economic Zone and other maritime zones - Government ships- Sovereign Immunity - Merchant ships - Access to Ports – Regulatory Framework - - Arrest of Vessels and Safeguards

##### **Module-2. Ownership & Registration of ships**

Ownership & Registration of Merchant Ships, Fishing Vessels - Role of Mercantile Marine Department – Classification Societies- Concept of Genuine link - Inspection Survey and procedure for Registration

##### **Module-3 Employment of Seamen**

Employment in ships –Seamen-meaning- Training for sea service - Rating of seamen -Continuous Discharge Certificate - Right to remuneration and other service conditions in ships.

##### **Module-4 Ancillary Shipping Contracts**

Ancillary Shipping Contracts - Pilotage - Salvage – Wages – Towage

##### **Module-5 Limitation of Liability**

Limitation of Ship owner's liability - Concept of Privacy – International convention on limitation of ship owners liability – Maritime safety-Safety of life- Security of Ports and Safety Management of Ships

### 18. Law relating to armed forces (20-272-0818)

#### **Course Objectives:**

The course gives a basic understanding on the defence laws of the nation. The course enables the student to analyse the different types of military offences and how the Court-martial system operates. The course throws light on the various legislative and constitutional protection given to Armed force and their liabilities/obligations. The course intends to cover the contemporary judicial and legal developments in this arena.

#### **Learning Outcome:**

On successful completion of this course, the students will be able:

- ❖ To acquire expertise over specialized area of armed forces law.
- ❖ To get preliminary knowledge in court martial proceedings.
- ❖ To achieve basic knowledge to research on law relating to armed forces.

#### **Course Content**

##### **Module I: Historical Background of Military Law**

The origin and development of Indian military Law. Discipline and Justice- International law on military laws- trial of prisoners of war.

##### **Module II: Indian Military Laws**

Army Act- Navy Act - Air Force Act.

##### **Module III: Military Offences**

Military Offences and punishment. Features of Military Court

##### **Module IV: Court Martial System**

The Court Martial System-Role of prosecutors-judge-evidence system-evolution of court martial system

##### **Module V: Military Laws Comparative Position**

Martial law – Constitutional position- Special powers to Armed Forces- Legislations-Acts of indemnity-comparison UK, USA-Judicial response to military interventions

### 19. Marine Safety Law (20-272-0819)

#### **Course Objectives:**

The course introduces the international legal framework for ensuring marine safety and prevention of pollution from ships. The course draws on measures adopted by IMO to address physical safety and stability of ships, manning standards, environmental protection and safety management schemes. The prevention of collision and shipping casualties and the power of authorities to initiate enquiries into casualties assumes relevance. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcomes:**

After successful completion of the course, students will be able to:

- ❖ Demonstrate expertise with legal aspects of marine safety for ships like Construction standards, physical safety and safety management norms adopted by IMO.
- ❖ Understand and reflect on problems with enforcement of these standards by regulatory agencies.
- ❖ Suggest interventions for improvement of the existing scheme of Marinesafety.

#### **Course Contents:**

##### **Module1: Introduction to Marine Safety**

Marine Safety-General principles governing safety of life and property at sea – prohibitions on sending unsafe ships to Sea - liability of owners and operators - duty to provide assistance ship in distress.

##### **Module 2: Construction and Manning Standards**

Construction and maintenance of ships - survey of ships - continuous survey obligations - IMO code for construction of ship - Indian ship construction rules. Manning of ships - Training, Certification & watch keeping – STCW Convention,1978, Employment Conditions of sea men – MLC 2006 -provisions of the Merchant Shipping Act, 1958 and Rules.

##### **Module 3: Physical Safety and Environmental safety**

Load line Conventions - loading of ships - unsafe goods – over loading.Safetyappliances, radar, maps and charts - radio and telecommunication rules, lifeboats, buoys etc- Safety Management (ISM) - Environmental safety and Climate change Norms for ships

##### **Module 4: Prevention of Collision**

Collision regulations - steering and signaling. Liability for collision -nominal and civil liability

##### **Module 5: Shipping Casualties**

Investigation of shipping casualties – Authorities & Powers under Indian Law.

## 20. SCIENCE, TECHNOLOGY AND LAW (20-272-0820)

### Course Objectives

This course aims at critically evaluating the challenges for Law in the wake of scientific advancements and the resultant technologies. As science challenges a lot of conventional concepts, ethics and morality, Law has to create a balance between restricting the misuse of the same, while to allow its use for the welfare of mankind. This course aims at having a vivid idea of the international as well as national norms in this regard, having the human rights overtones as the basis. The course intends to cover the contemporary judicial and legal trends in this area.

### Learning outcomes

After completing the course, the students should be able:

- ❖ To understand the conflict between ethics, and morality on the one hand, and scientific advancement on the other and the role of Law in balancing them.
- ❖ To develop the capacity to be balanced while approaching the conflict between ethics which is often a religious conviction and use of technologies.
- ❖ To realize the importance and the need for a law student to have adequate knowledge in all fields of knowledge including in science.

### Course Content

#### Module 1- Science and Social Conflicts

Impact of science on society – Scientific Advancement and Traditional Values–Role of law in balancing conflict between science and customary values- rule of social acceptance of norms.

#### Module 2- Ethics and scientific research

Scientific research and its social implications – science and ethics-human and animal research- ethical and legal concerns- privacy, autonomy, self-determination and other human rights in scientific research.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - VIII

---

#### **Module 3- Scientific Advancements and Law**

Science and problem of human civilization-application of scientific knowledge environmental hazards– Nuclear disaster-impact of scientific developments on environment

-Law's response–State liability- limitations by Law.

#### **Module 4- Biotechnology and Law**

Problems raised by developments in biological sciences–knowledge in genetics and its social- regulation on research over human body materials- human body as property- implications - ethical problems in human genetics- judicial responses- patenting living organisms.

#### **Module 5- Newer Technologies and the Law**

Replacing human intelligence by artificial intelligence- legal and ethical challenges- artificial intelligence in healthcare settings- doctor-patient relationship- impact on socialization process and limitations- national and international legal measures- block chains.

### 21. SECURITIES LAW (20-272-0821)

#### **Learning Objectives:**

The primary objective of the course is to identify different kinds of 'securities' and examine the features of different kinds of securities. It enumerates the functioning of securities market. It analyses the role of regulators in securities market and securities market intermediaries. It helps the students in understanding the role and functioning of stock exchanges. It introduces various kinds of alternate investment funds available in the market. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcome:**

On successful completion of this course, the students will be able:

- ❖ To develop an idea about securities market and its effect on economy
- ❖ To understand the law governing securities market
- ❖ To acquire knowledge about legal compliances to be satisfied for issue of securities

#### **Course Contents:**

##### **Module I: Introduction**

Meaning of 'securities' - Kind of securities - Shares and debentures - Hybrid securities - Government securities-Depository Receipts- Need for securities market regulation- Securities Market and Economic growth-Securities market reforms- International organization of securities commissions (IOSCO)

##### **Module II: Securities Market**

Securities markets regulation- Jurisdiction, powers and functions of SEBI- Control over stock exchanges- Primary market-secondary market - Governance of stock exchanges- Corporatization and demutualization of Stock exchanges- Depositories- dematerialization - Stock Exchanges in International Financial Service Centres.

##### **Module III: Role of Market Intermediaries**

Securities market intermediaries- Regulatory controls- Stock exchanges- merchant bankers- credit rating agencies - Underwriters -share transfer agents-Clearing corporations, Credit Rating agencies-Self-regulatory organizations (SRO).

##### **Module IV: Trading in Securities**

Sale and Purchase of securities-Investor Protection- Role of SEBI- Redressal of grievances- Prohibition of fraudulent trade practices-Market manipulation-Insider Trading.

##### **Module V: Alternate Investment Funds**

Mutual funds, venture capital funds, angel funds, collective investment schemes - Hedge Funds-Real Estate Investment funds - Private Equity.

### 1. Mediation, Conciliation and Arbitration (20-272-0901)

#### Course Objective:

Owing to the many drawbacks of the mainstream judicial dispute settlement, the understanding of alternative dispute resolution (ADR) is a necessity for any modern lawyer. Today, students of law must be equipped with the theoretical and practical knowledge of specialised mechanisms of dispute resolution which are both time and cost effective, and aids the disputing parties to reach settle the differences. The course, thus, explores the concept of alternative dispute resolution and the various established ADR mechanisms with an emphasis on Mediation. The course aims to provide training in practical skills apart from theory. The course intends to cover the contemporary judicial and legal trends in this area.

#### Learning Outcomes:

After the successful completion of the course, the students will be able to:

- ❖ Acquire the skills of settling a dispute at the pre-trial stage
- ❖ Evaluate the procedures of dispute settlement outside formal court system
- ❖ Draft agreements for mediation including settlement agreements

#### Course contents

##### Module I – Introduction to Alternative Dispute Resolution

Understanding Conflict and Disputes – Modes of Dispute Resolution – Advantages of ADR – Different forms of ADR – Legal framework in India

##### Module II – Importance of Mediation and Key Concepts

Theory of restorative Justice and Traditional Mediation Practice – New approaches to mediation – Essential elements and processes – role of the mediator

##### Module III – Settlement agreements and mediation laws in India

Decision making techniques - Drafting of agreements - sanctity of mediated agreements - enforcement laws and procedures.

##### Module IV - Important Developments in Mediation

Growth of virtual dispute resolution – Commercial mediation - UNCITRAL Model Law – Singapore Convention on Mediation.

##### Module V – Conciliation and Arbitration

Meaning of conciliation – conduct of proceedings – settlement agreement – relation to arbitral and judicial proceeding; Arbitration – meaning of – difference with other kinds of mechanisms – Arbitration agreement – Tribunal - Award

### General Electives for IX (choose any 2 papers)

#### 2. Animal Protection Laws

20-272-0902

#### Course Objective:

The course intends to discuss fundamental questions such as relationship between man and animal, role of culture and belief in protection and exploitation of animals and the status of animals as property. It introduces the students to the broad range of laws that deals with companion animals, farm animals, animals used for entertainment and animals used for scientific experimentation. The course intends to cover the contemporary judicial and legal trends in this area.

#### Learning Outcome:

On successful completion of this course, the student will be able:

- ❖ To appreciate the legal debates on relationship between man and animal.
- ❖ To understand the cultural, economic and legal context of animal use and exploitation.
- ❖ To analyse various laws dealing with protection of animals and their welfare.

#### Course Content:

##### Module I: Introduction

Animals- moral status- Different approaches- philosophic, religious scientific and historical- man and his relationship with animals-Humanism and compassion to animals- Position of animals in nature- feraenaturae and ferae mansuataenaturae- Kind of protection needed for animals.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - IX

---

#### **Module II: Wild Life Protection**

Laws on Wildlife Protection- Ownership of wild life- Public trust doctrine-First man who possess it- Wild life protection legislations in India- National and international legal framework on wild life protection- Protection of endangered species- Critical wildlife habit under Forest Rights Act, 2006- Symbiotic relationship between wildlife and tribal people – human-wildlife conflict.

### **5. Health Care Laws**

**(20-272-0905)**

#### **Course Objectives:**

Health is undoubtedly the most important aspect of any meaningful life. The principal aim of this course is to enable the students to understand the various institutions involved in health care and the extent of state regulation over them. This course will also give students a theoretical perception about the concept of “right to health” as different from state obligation to provide healthcare, through case laws and help them understand the various remedies available against the healthcare institutions in case of lapses on their part. Thus, it will enable students to have an overall view about the laws in India relating to healthcare. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcome:**

On successful completion of this course the students should be able:

- ❖ To develop a clear idea about the laws regulating professionals and healthcare institutions in India
- ❖ To imbibe the capacity to read judgments and to find out the ratio decidendi of the case so as to check how one judgment will act as a precedent for the others.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - IX

---

- ❖ To develop a capacity to render legal advice to those who either are victims of negligence from the side of hospitals, or cases of food adulteration, or other activities due to which the health of a person is in danger, or to doctors of health care institutions who are victims of attack from the patients or their relatives

#### Course Contents

##### **Module I: Health – Basic understandings**

Meaning and concept- Distinction between health and disease-Development of health care in India-Pre British, British and post british period- The various health care systems-Ayurveda, Yoga, Unani, Sidha, Homoeopathy, naturopathy, acupuncture and Allopathic.

##### **Module II: Right To Health Care Service**

International obligations of state - constitutional provisions - judicial approach -Common law - medical ethics - Patient rights - consent for treatment - right to medical records

##### **Module III: Liability For Professional Negligence**

Tort of negligence and trespass-standard of care-Liability under consumer law–liability under criminal law

##### **Module IV: Regulation Of Institutions**

Medical and para medical institutions – other medical institution - corporative position. Registration of medical professionals - regulatory authorities, Medical Council, Dental Councils, Pharmacy Council, Nursing Councils - Registration under different system of medicines - Regulation of manufacture and storage of medicine - sale - advertisement- transportofmedicines,DrugsandCosmeticAct,andrules-drugprice controlorders.

##### **Module V: Emerging Issues**

Special provisions relating to mental healthcare-shift in the Mental Healthcare Act, 2016- International Human Rights norms–transplantation of human organs-pre-natal diagnostic techniques - AIDS controls - medical termination of pregnancy and euthanasia. - Medical waste disposal- Disputes relating to medical insurance.

### **13. Information Technology Law**

**(20-272- 0932)**

#### **Course Objectives:**

The objective of this course is to provide an idea about the cyber laws in India as well as other countries. It enlightens the students about the law relating to e-commerce and various nuances involved in it. The course also provides an idea about various types of cybercrimes and the law relating to it; digital signatures and electronic signatures as well as enforcement issues in cyber space. The course intends to cover the contemporary judicial and legal trends in this area.

## **5 Year B.B.A. LL.B. (Honours) Syllabus - 2020**

### **Semester - IX**

---

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To protect himself from cyber threats and also able to advice his friends and family against such threats
- ❖ To do e-commerce and digital payments in more secured way
- ❖ To guide the victims of cyber-attacks about the remedial measures of such attacks.
- ❖ To pursue a career as cyber law consultant

#### **Course Contents:**

##### **Module I: Introduction**

Computers and its Impact in Society - Overview of Computer and Web Technology - Need for Cyber Law - Cyber Jurisprudence at International and Indian Level - International Perspectives - UN & International Telecommunication Union (ITU) Initiatives - Council of Europe - Budapest Convention on Cybercrime - Asia-Pacific Economic Cooperation (APEC)- Organization for Economic Cooperation and Development (OECD)- World Bank - Commonwealth of Nations

##### **Module II: Constitutional & Human Rights Issues in Cyberspace**

Freedom of Speech and Expression in Cyberspace - Right to Access Cyberspace – Access to Internet - Right to Privacy - Right to Data Protection

##### **Module III: Cyber Crimes & Legal Framework**

Cyber Crimes against Individuals, Institution and State - Hacking - Digital Forgery - Cyber Stalking/ Harassment - Cyber Pornography - Identity Theft & Fraud - Cyber terrorism - Cyber Defamation -Different offences under IT Act, 2000 - Relevancy of Admissibility of Computer Evidence - Cyber Forensic.

##### **Module IV: Cyber Torts & IPR issues**

Cyber Defamation - Different Types of Civil Wrongs under the IT Act, 2000 - Interface with Copyright Law - Interface with Patent Law - Trademarks & Domain Names Related issues

##### **Module V: E Commerce & Dispute Resolution**

Concept - E-commerce-Salient Features - Online approaches like B2B, B2C & C2C - Online contracts - Click Wrap Contracts – IT Act, 2000- Applicability of Indian Contract Act, 1872 - Concept of Jurisdiction - Indian Context of Jurisdiction and IT Act, 2000 - International Law and Jurisdictional Issues in Cyberspace- Dispute Resolutions

### **14. Insurance Law** **(20-272- 0933)**

#### **Course Objective:**

The course throws light on the fundamental principles of insurance law. It provides insights on the special features of different kinds of insurance. It helps students to familiarise with the procedure of making insurance claims. It also discusses the regulatory controls over insurance business, the role and functions of regulatory agencies and insurance intermediaries. The course intends to cover the contemporary judicial and legal trends in this area.

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- To understand the general principles relating to insurance law
- To familiarise with different risk factors and role of insurance in mitigating risk.
- To develop critical thinking on various concepts of insurance law.

#### **Course Contents:**

##### **Module I: Introduction and Legal Framework**

Nature and definition of insurance -Evolution of insurance-Need for insurance - Classification of insurance- Formation of Insurance contract - Regulation of insurance business in India – IRDA- Powers and functions - Regulation of insurance intermediaries- Ombudsman.

##### **Module II-General Principles**

Nature of Insurance Contract- Contract of utmost good faith- Scope of duty of disclosure- Insurable Interest- Proximate Cause-Principle of indemnity- Conditions and warranties-Premium

-Attachment and Duration of risk- Factors affecting risk - Excepted perils.

##### **Module III-General Principles**

Double insurance- Reinsurance-Subrogation-Contribution -Loss and measure of indemnity- Procedure for making insurance claim- Persons entitled to claim-Settlement of claims- Transfer and Assignment of policy.

##### **Module IV- Special features of Fire and Marine Insurance**

Subject matter of marine insurance- Hull, cargo, Freight – Kinds of marine policies-Time, voyage, mixed-Maritime Perils-Implied terms in marine policy – Marine Losses-Partial loss and total loss - Abandonment-Fire Insurance- kinds of policies- Valued, Unvalued, Average, Floating Policy- Fire Perils and Exceptions.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - IX

---

#### **Module V- Other Kinds of Insurance**

Health Insurance- Property insurance - Liability insurance - Insurance under Motor Vehicles Act- MACT -powers and functions - Public liability insurance - Social security insurance - sickness, old age and unemployment – Employee State Insurance.

# 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

## Semester - X

---

### 1. Moot Court Exercise and Internship

20-272-1001

#### Course Objectives:

Moot courts are simulation exercises intended to develop advocacy skills in students. Through this course, it is intended to impart practical skills of research, case analyses and strategy, witness handling, and presentation of arguments at the trial and appellate stages of a case. The course is divided into four components dealing with the moot court, mock trial, court visit, and viva voce/attendance. The course exposes the students to the system of administration of justice through court visits, chamber visits and internships. The students shall work in teams. All students are required to be present in all the classes to maximise the learning opportunities.

#### Learning Outcome:

On successful completion of this course, the student will be able:

- ❖ To articulate and communicate logical and legal arguments.
- ❖ To develop analytical, research, writing and public speaking skills.
- ❖ To learn skill of doing client interview, preparing a case and conducting trial in courts and other judicial forums.

#### Course Contents:

##### Module I: Moot Court Exercise (30 marks)

The course teacher will assign three moot court problems to the students and they have to work on all three problems assigned. Students should prepare written submission and present arguments in a moot court setting. Written submission, judgment and oral arguments shall carry 5 marks each. Each student will prepare a case only on one side. The memorial specification given by course teacher should be strictly followed. The oral performance will be evaluated on the basis of communication skills, application of facts, persuasion, use of authorities, and response to questions.

##### Module II: Mock Trial and Case Analysis (30 marks)

The students are required to do the mock trial and case analysis of two cases, one civil and one criminal. Each student will be required to function as lawyer and witness in the mock trial simulated in the classroom. Case analysis, written submission, examination-in-chief, cross-examination, performance as witnesses and final arguments shall carry 5 marks each.

##### Module III: Court visit/Chamber visits, Internship (30 marks)

Chamber Visit- Every student shall attend a practicing lawyer's office. The lawyer should have a minimum of 10 years standing at the Bar. A minimum of two hours are to be spent daily with the lawyer observing client dealings, drafting, conducting fact investigations, etc., for at least twenty-four days in the semester. At the end of internship, a certificate confirming the student's attendance at the lawyer's office will have to be produced.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - X

---

In the chamber visit they are required to do and record the following:

- a. Draft minimum of two documents in an ongoing case.
- b. Read minimum four case files to learn how files are prepared and maintained.
- c. Learn how to maintain records and accounts.
- d. Do legal research in at least two cases.
- e. Observe client interview and counselling with the permission of the lawyer and client in at least two cases.

**Court Visit-** During the court visit, the students shall observe the trial of one civil and one criminal case. Students may be required to attend two trials in the course of the last two or three years of LL.B. course. They will maintain a record and enter the various steps observed during their attendance on different days in the court assignment. They should maintain a record and write a report of their observation of the following stages:

- a. Framing of charge or issue
- b. Examination in chief
- c. Cross Examination
- d. Final arguments

**Internship Diary** -Students are required to maintain a record of their field visit, work done during internship. Each student will observe two interviewing sessions of clients at the Lawyer's Office/Legal Aid Office, the preparation of documents and court papers by the Advocate and the procedure for the filing of the suit/petition. **This will be recorded in the diary, which will carry 15 marks.** The diary should contain two parts:

1. Information about work done during their internship.
2. Two legal documents drafted by them during internship should be attached.

The record shall be an integral part of the course and it will be evaluated in terms of reflection about the learning experiences of the student. The record must be written in their own words. If two or more students are found to have copied each other's language, both/all the students who are found to have copied will be given zero marks for the work.

#### **Module IV: Viva Voce.**

The last component of this course will be a viva voce on all the above three components. This will carry 10 marks.

### 4. Foreign Trade Law (20-272- 1004)

#### **Course Objective:**

The course takes its starting point in international commercial contracts and cross-border sales transactions. Additionally the course discusses areas of law closely connected with this, such as international transport of goods, insurance, and relevant laws relating to payments and financing of the foreign trade. The course provides the basic knowledge of how international private (commercial) disputes are resolved through international arbitration. Furthermore, the course intends to supply the basic knowledge of Indian legal and policy framework relating to export trade. The course intends to cover the contemporary judicial and legal developments in this area.

#### **Learning outcomes:**

On successful completion of this course, the students will be able:

- ❖ To compare different cross-border financial transactions to locate different regulations governing transnational business activities
- ❖ To identify the legal mechanisms available to facilitate international dispute resolution and as well as the domestic laws relating to foreign trade
- ❖ To generally summarise the nature of private international trade law within the structure of the international legal system.

#### **Course Contents:**

##### **Module I: International Commercial Contracts and Sales**

Types of International Contracts – Standard Trade Terms (CIF, FOB, FAS) – Rights Liabilities of Parties to Contracts – UNIDROIT Principles of International Commercial Contracts – Convention on International Sale of Goods – INCOTERMS

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020 Semester - X

---

### **Module II: Carriage of Goods in Export Trade**

Carriage of Goods by Sea – Bills of lading and Charter Parties – Rights and Liabilities of the Parties to Contract of Carriage – Hague Rules – Hague-Visby Rules – Hamburg Rules – Carriage by Air and Land – Multimodal Transport Law – Marine Insurance

### **Module III: Payments and financing in Export Trade**

Bills of Exchange – Law Relating to Bills of Exchange – Commercial Credit in International Trade – Letter of Credit – Types and the Law Relating to Commercial Credit

### **Module IV: Dispute Resolution in Foreign Trade**

International Commercial Arbitration – UNCITRAL Model Law – National laws and the Role of Courts – Recognition and Enforcement of Arbitral Awards – Maritime Arbitration

### **Module V: Indian Law on Foreign Trade**

Constitutional scheme – Regulatory aspects – Exim Policy – Customs Act – Foreign Trade (Development and Regulation) Act – Foreign Exchange Management Act – Export Credit Guarantee Corporation Act – Export Promotion Council

## **5. Law of Carriages**

**(20-272- 1005)**

### **Course Objectives:**

The course aims to study the different modes of transportation of goods, and the international and national legal framework for such carriages. It will cover the fundamentals of carriage law while discussing commercial carriage transactions through various transport systems such as transport by land, air and sea. The course will also help a student to learn about the provisions of multimodal transportation law. It will further discuss the important aspects of dispute resolution relating to carriage, which is available under various legislations. The course intends to cover the contemporary judicial and legal developments in this area.

### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To understand the essential legal aspects relating to transportation of goods through different modes, including a familiarity with the type of parties and documents involved.

## 5 Year B.B.A. LL.B. (Honours) Syllabus - 2020

### Semester - X

---

- ❖ To interpret various legal provisions and judicial decisions pertaining to carriage of goods by different modes.
- ❖ To identify how carriers' liability varies between contracts and study the importance of liability clauses in domestic and international legal framework.

#### **Course Contents:**

#### **Module I: Overview of Transportation Law**

Contract of transportation – Definition of Parties – Concept of Common Carrier — Public Carriers – Distinction with Private Carriers – Liability of carriers under Common Law – Exemption from liability.

#### **Module 2: Carriage by Land**

The Carriage by Road Act, 2007 and Rules, 2011 – The Railways Act, 1989 – Convention on the Contract for the International Carriage of Goods by Road (CMR) 1956 – Consignment Note – Waybill – Liability of Railway Company for loss of goods

#### **Module 3: Carriage of Goods by Air**

Warsaw Convention 1929 – The Hague Protocol, 1955 – Montreal Convention 1999 – Carriage by Air Act, 1972 as amended in 2009 – Compulsory documents of carriage – Airway Bill – Liability of airlines – Limitation of liability.

#### **Module 4: Carriage of Goods by Sea**

Affreightment contracts – Charter party and bill of lading – The Hague – Visby - Hamburg & Rotterdam Rules 2008 – Indian Bills of Lading Act – Carriage of Goods by Sea Act

#### **Module 5: Multimodal Transportation and Dispute Resolution**

Definition of Multimodal Transportation – Multimodal Transportation of Goods Act, 1993 – Dispute resolution Provisions under the Commercial Courts, Commercial Division and Commercial Appellate Division of High Courts Act, 2015

#### **References:**

### **7. Law of Corporate Governance**

#### **(20-272-1007)**

#### **Course Objective:**

The course intends to provide insights about the origin and development of corporate governance as a separate discipline. It discusses the theories of corporate governance and the sources of corporate governance rules. It gives an idea about the governance structure of companies and its relation with ownership pattern. It will enable the student to develop their own perspectives on various corporate governance issues. The course intends to cover the contemporary judicial and legal developments in this area.

#### **Learning Outcomes:**

On successful completion of this course, the students will be able:

- ❖ To appreciate the legal complexities in corporate governance
- ❖ To analyse relationship between ownership pattern and governance issues
- ❖ To do legal research and write papers on various corporate governance issues.

#### **Course Contents:**

##### **Module I: Introduction to Corporate Governance**

Models of corporate governance- Separation of ownership and Control- Agency Problem- Conflicts of interests- Shareholder and Stakeholder Theory- Expert Committees on Corporate governance -Comparative Corporate Governance- Convergence in Corporate Governance.
